

Rugged vehicular PC

ARVAPC

Description

ARVAPc is a multipurpose PC, created for industrial, building and agricultural use.

Based on a standard PC platform, lightweight, portable and rugged ARVAPC is ergonomic and safe. It has a TFT high contrast color Touch Screen.

Internal anti-shock systems makes it resistant to bumps, falls, moisture and dust and suitable with the most severe conditions.

ARVAPc is equipped with Windows XP Embedded Operating System, customizable, depending on each need, with different types of GPS and Radiomodem.
